

In the name of Allah, the Gracious, the Merciful

The brother, the wali, may God preserve him,

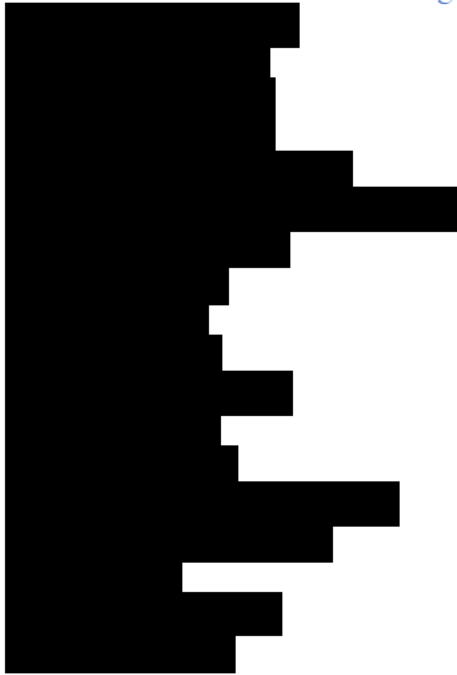

We are the residents of al-Tayyarah neighborhood, the area located to the west of Kaziyat [illegible].

Our suffering started a month or more when a neighbor rented a warehouse to one of the brothers in the Islamic State, named Abu Aya al-Ansari. At the beginning of the rent the workshop was supposed to be used as a carpentry workshop, but we were surprised a few days later by the installation of a large generator that makes noise and makes a loud noise when it is running, in addition is the sounds of iron, turning and blacksmithing machines from this workshop. Also, many cars come to this workshop and the brothers gather, which poses a danger to us from the enemy's planes that do not distinguish and target everything.

We ask you, dear brother, to remove this workshop from the residential neighborhood.

And God is the granter of success.
